Experience

Senior Engineer at Juno Medical — Oct 2022 to Present

- Stack: Node.js, TypeScript, React, GraphQL, Apollo, NextJS, Postgres, Docker, Heroku
- Carefully followed HIPAA regulations for managing patient health information across a robust set of portals
- Agile/Scrum
- Notable Projects
 - Built and implemented module for generating billing estimates for out-of-pocket payments for appointments
 - Revised OAuth token management across apps to enforce clearer authorization
 - Introduced and built out unit and integration test suite for all API modules

Senior Engineer at SimpleHealth — Aug 2020 to Aug 2022

- Stack: Node.js, TypeScript, React, GraphQL, MySQL, AWS, Docker
- Agile/Scrum
- Led a team to integrate a new fulfillment partner for prescription products, leading to significant savings across multiple departments
- Mentored junior team members and created resources for knowledge sharing

Software Developer at Lone Rooftop — Dec 2018 to Jul 2020

- Stack: Python, AWS, Docker, Tornado, React, Swift
- High-security environment: followed least privilege principle to handle sensitive client occupancy data
- Integrated new occupancy sensors, acted as main point of contact for partnership

Freelance Software Developer at Greenhome — Oct 2018 to Dec 2018

- Stack: Node.js, Typescript, React, Postgres
- Full-time remote work
- Built microservice for importing over 100GB of historical building records, streaming objects to database

Software Developer at Dimebox B.V. — Apr 2017 to Sep 2018

- Stack: Node.js, TypeScript, MongoDB, Angular, Redis, Docker
- Wrote and tested PCI-compliant code for processing transactions for a variety of payment methods

Back-End Developer at Nestio — Aug 2015 to Sep 2016

- Stack: Python, Django
- Redesigned and automated data-related tasks — wrote Python scripts and CRON jobs to verify stale data & diagnose and correct data corrupted by errors in legacy codebase

Skills

Programming: Node.JS, TypeScript, Python, Go, React, AWS, Docker, Django, HTML/CSS, Git

Languages: Fluent in English, conversational in Spanish, beginner in Dutch

Interests: Reading, songwriting, scuba diving, traveling, hiking, electric guitar

Education

Yale University, New Haven, CT

- **Bachelor of Arts, Intensive Music Major** — concentration in composition — May 2015
